Product sheet

Element

Material

Structure

Steel furniture tube.

Seat-part
and back rest

In leather.

Characteristics

The structure is held together by steel screws and pins and wire-welding.

Instructions for use

Use and maintenance

This product is suitable for home use. Do not stand on the seat part, do not lean back on the legs and do not sit on the back rest; do not carry out maintenance or repair operations. Clean the product with a slightly damp cloth and dry off quickly.

Maintenance of the leather

In order to keep the hide leather in good condition, dust it regularly with a soft, clean cloth. Once or twice a year we suggest to use the protective and nourishing products included in our "Care and cleaning Kit" which can be purchased separately through our retailers. Avoid using alcohol or other solvents which may corrode the hide.

Any imperfections in the surface of the leather is a natural characteristic of the material (authenticity of the material). If it is directly exposed to sunlight, the colour may be altered.
